

A record-breaking 20 billion RF SOI chips shipped

Count on GLOBALFOUNDRIES to help you reach your own milestones.

GLOBALFOUNDRIES has now delivered more than 20 billion RF SOI chips for the world's smartphones, tablets and more. Thanks to ongoing innovation, investments and capacity expansion, we're primed to help give our customers an edge in next-generation RF-enabled devices.

PERFORMANCE

With performance that makes complex multi-band/multi-mode RF switching a reality in sleek new mobile devices, our chips are helping industry leaders redefine mobility.

STRENGTH

Top mobile-device suppliers exploit the strengths of our global RF SOI manufacturing capabilities and capacity, knowing they can count on a team that's shipped an unrivaled 20 billion chips.

RESULTS

With our proven track record of success and forward thinking, RF SOI customers trust us to deliver the results they need today, and to be ready with the silicon solutions they'll need tomorrow.
